CONTENTS

EXECUTIVE SUMMARY

1 INTRODUCTION 1-1

1.1 The Project Owner 1-1

1.2 The Road Decongestion Programme 1-1
1.2.1 The Project 1-2

1.3 Project Team 1-2
1.3.1 Korean Expressway Corporation (KEC) 1-3
1.3.2 CHEIL Engineering Co. Ltd. 1-3
1.3.3 Kyongdong Engineering Co. Ltd. 1-4
1.3.4 GIBB (Mauritius) Ltd. 1-4

1.4 History of Assignment 1-4
1.4.1 Aim of Project 1-4
1.4.2 Initial Project Description 1-5

1.5 Scope and Methodology of the EIA 1-5

1.6 Report Structure 1-6

2 FRAMEWORK FOR EIA 2-1

2.1 Legal Framework 2-1
2.1.1 Environment Protection Act, 2002 2-1
2.1.2 Other Applicable Legislation 2-2
2.1.3 The Forest and Reserves Act, 1983 2-2
2.1.4 The Rivers and Canals Act, 1863 2-2
2.1.5 The Rivers (Control of Vegetation) Act, 1946 2-3
2.1.6 Central Water Authority Act, 1991 2-3
2.1.7 Wastewater Authority Act, 2000 2-3
2.1.8 Regulations 2-4

2.2 Policies, Panning Schemes and Guidelines 2-5
2.2.1 National Environment Policy 2-5
2.2.2 National Development Strategy 2-5
2.2.3 Environmentally Sensitive Areas 2-5
2.2.4 National Forest Policy 2-7

2.3 International Treaties 2-7
2.3.1 The Convention on Biological Diversity 2-7
2.3.2 International Convention and Protocol Signed/Ratified by Mauritius 2-8
3 THE PROPOSED PROJECT

3.1 Introduction 3-1

3.2 Project Description 3-2

3.3 Geometric Design of the Proposed Road 3-2
3.3.1 Design Standard 3-2
3.3.2 Road Classification 3-3
3.3.3 Design Speed 3-3
3.3.4 Design Surveys 3-3

3.4 Grade Separations and Interchanges 3-4
3.4.1 General 3-4
3.4.2 Auxiliary Lanes 3-4
3.4.3 Intersections 3-5

3.5 Typical Cross Sections 3-5
3.5.1 Review of Cross Section Elements 3-5
3.5.2 Width of Shoulder 3-5
3.5.3 Median Strip 3-5
3.5.4 Sidewalks 3-6
3.5.5 Applied Cross Sections 3-6
   (a) Typical Cross Section for A1-M1 Link Road (STA.0+000 to STA.0+496) 3-6
   (b) Typical Cross Section for A1-M1 Link Road (STA.0+496 to STA.0+728) 3-6
   (c) Typical Cross Section for A1 Road from STH 0+728 to STA 0+1068 3-7
   (d) Typical Cross Section for A1 Road from STH 0+000 to STA 0+390 3-7
   (e) Typical cross section for A1 Road from STA.0+390 to STA.0+600 3-8
   (f) Typical Cross Section for A1 Road from STA.0+600 to STA.0+725 3-8
   (g) Typical Cross Section for One-way Connector Road (Ramp-A, B, C, D, E) 3-9
   (h) Typical Cross Section for One-way Connector Road (Ramp-A, D) 3-9

3.6 Pavement Design 3-9
3.6.1 Design Standards 3-9
3.6.2 Design Life 3-10
3.6.3 Pavement Type A1-M1 Link Road 3-10
   (a) A1 Road Section 3-10
   (b) A1-M1 Link Road section 3-10
   (c) Soreze Interchange Ramps Section 3-11
   (d) Pavement design for Bridges on A1-M1 Link Road 3-11

3.7 Bridge Design 3-11
3.7.1 Chebel Viaduct 3-12
3.7.2 Grand River North West Valley Bridge 3-13
3.7.3 Sorèze Ramp Bridge 3-14

3.8 Pedestrian Footpath 3-15
4 CONSIDERATION OF ALTERNATIVES

4.1.1 No-Go Alternative

4.2 Description of Proposed Works

4.3 Considerations of A1 Alignment

4.3.1 Study of the Traffic System for Industrial Area Entry and Exit

4.3.2 Study of the Access Point to the Industrial Area

4.3.3 Design of Typical Cross Sections

4.3.4 Proposal of Typical Cross Section

4.3.5 Review of Horizontal Alignments
  (a) Review of obstacles on A1 road.
  (b) Alternative 1
  (c) Alternative 2
  (d) Recommendation of Alternatives

4.4 Review on Connection with M1 Motorway

4.4.1 Review of existing M1 Motorway
  (a) Composition of Existing Lanes

4.4.2 Emergency Lanes

4.4.3 Plan and Profile of each Alternative

4.4.4 Evaluation of Alternatives
  (a) Alternative 1: Overpass of M1 Motorway + No change of loop direction
  (b) Alternative 2: Underpass of M1 Motorway + No change of loop direction
  (c) Alternative 3: Overpass of M1 Motorway + change of Loop direction

4.4.5 Conclusion

5 BASELINE ENVIRONMENT CONDITIONS

5.1 Introduction

5.1.1 Study Area

5.1.2 Features in the Project Area

5.2 Junction with A1 Road

5.3 Topography

5.4 The General Traffic Situation

5.5 Climate

5.6 Wind Climate

5.7 Geology, Topography and Drainage/Hydrology

5.8 Water Quality
5.9 Canals 5-10
5.10 Air Quality 5-11
5.11 Flora and Fauna 5-12
5.12 Noise 5-12
5.13 Aesthetics/Landscape Value 5-13
5.14 Consultations/Public Participation 5-14
5.14.1 Consultation with Authorities 5-14
5.14.2 Key Issues Raised 5-15
5.14.3 Public Participation 5-15

6 BASELINE TRAFFIC SITUATION 6-1
6.1 Introduction 6-1
6.2 Bus Transport System 6-2
6.3 Review of transit route and number of operations in project area 6-2
6.3.1 Review of Bus Routes passing A1-M1 area 6-2
6.3.2 School Bus System 6-2
6.3.3 Road Network Status 6-2
6.3.4 Traffic Safety Facility Status 6-3
6.3.5 Traffic Volume Status in Access Roads and Intersections 6-4
6.3.6 Analysis of Level of Service in Arterial Section 6-4
6.3.7 Result of Level of Service Analysis at Unsignalised Intersections 6-5
6.3.8 Road Safety Audit of Project Area 6-5
6.3.9 Information on Underground Utilities from Relevant Institutes 6-6

7 IMPACT ASSESSMENT 7-1
7.1 Methodology 7-1
7.2 Issues Raised during Consultations 7-2
7.3 Socio Economic and Social Issues 7-3
7.3.1 Economic Impacts 7-3
7.4 Cultural Impacts 7-4
7.4.1 Construction Stage 7-4
7.4.2 Operational Stage 7-4
7.5 Local Ecology and Water Quality 7-4
7.5.1 Direct Impacts 7-5
7.5.2 Indirect Impacts 7-6
7.5.3 Impacts on Biodiversity 7-7
   (a) Loss of Terrestrial Biodiversity 7-7
   (b) Loss of Riverine Biodiversity 7-7
   (c) Loss of Species of Special Concern 7-7
   (d) Fragmentation of Habitat 7-7
   (e) Loss of Trees 7-7
   (f) Loss of Carbon Sequestration Capacity 7-7
8  TRAFFIC IMPACT ASSESSMENT

8.1  Introduction

8.2  Construction Stage

8.3  Operation Stage - Premise of Traffic Demand Forecast

8.4  Scope of Assessment

8.4.1  Integration of Metro Express

8.5  Level of Service

8.5.1  Definition

8.6  Result of Assessment at Operation Stage

8.6.1  Required Lanes for the A1-M1 Link Road

8.6.2  A1-M1 Link Road Operational Analysis

8.6.3  Results of A1M1 Simulation

8.6.4  Computed LOS

8.7  Conclusion

9  MITIGATION MEASURES AND MONITORING PLAN

9.1  Pollution Prevention

9.2  Terrestrial Ecology

9.2.1  Loss of Vegetation and Loss of Trees along the Corridor

9.2.2  Invasion by Alien Plants

9.2.3  Precautionary and Prevention Measures

9.3  Aquatic Ecology

9.4  Plaines Wilhems Canal

9.5  Cultural Impacts
9.6 Existing Utilities 9-4
9.7 Mitigation during Construction 9-4
9.7.1 Measures suggested by Stakeholders in the SIA 9-6
9.8 Mitigation for Impacts during the Operational Stage of the Road 9-7
9.8.1 Accidents 9-7
9.8.2 Water Quality 9-7
9.8.3 The Landscape and Visual Environment 9-7
9.9 Environmental Monitoring Plan 9-8

10 CONCLUSION 10-1

List of Appendices

Appendix A: Notes of Scoping Meeting with Ministry of Environment
Appendix B: Water Quality and Ambient Air Quality Test Results
Appendix D: Drawings
List of Drawings

- M191 / A1-M1 / EV / LA / 01 - Project location A1-M1 link road
- M191 / A1-M1 / S / 01 - Topographic Map A1-M1 Link road Map A
- M191 / A1-M1 / S / 02 - Topographic Map A1-M1 Link road Map B
- M191 / A1-M1 / EV / LA / 02 - Context Map at A1-M1 link road
- M191 / A1-M1 / EV / LA / 03 - Localities around the project at A1-M1 link road
- M191 / A1-M1 / EV / LA / 04 - Sampling Location for noise surveys air and water at A1-M1 link road

List of Tables

- Table 3-1: Road Classification ................................................................. 3-3
- Table 3-2: Design Speed of the Project .................................................. 3-3
- Table 3-3: Typical Cross Section with Sidewalk (A1-M1) – Duel Carriageway with 2 Lanes in Each Direction ................................................................. 3-6
- Table 3-4: Cross Section (A1-M1) - Dual Carriageway with 2 Lanes in each Direction ................................................................. 3-7
- Table 3-5: Typical Cross Section (A1-M1) – Dual Carriageway with 1 Lane in each Direction ................................................................. 3-7
- Table 3-6: Pavement Details for A1 Road Section ........................................ 3-10
- Table 3-7: Pavement Details for A1-M1 Link Road Section ......................... 3-10
- Table 3-8: Pavement Details for Soreze Interchange Ramps Section ............ 3-11
- Table 3-9: Pavement Details for Bridges on A1-M1 Link Road Section .......... 3-11
- Table 3-10: Details of Bridges along A1-M1 ................................................ 3-12
- Table 4-1: Comparison between Alternatives 1 and 2 for Horizontal Alignments ................................................................. 4-8
- Table 4-2: Evaluation of Alternative 1 for M1 Motorway ................................ 4-12
- Table 4-3: Evaluation of Alternative 2 for M1 Motorway ................................ 4-13
- Table 4-4: Evaluation of Alternative 3 for M1 Motorway .............................. 4-13
- Table 5-1: Principal Features in the Project Area ............................................ 5-2
- Table 5-2: Highest Gusts at Vacoas Station due to Intense Cyclones .......... 5-7
- Table 5-3: Estimation of Extreme Wind Speeds for the Return Periods ........ 5-8
- Table 5-4: Results of Water Quality Analysis .............................................. 5-10
- Table 5-5: Results of Ambient Air Quality Monitoring .................................. 5-11
- Table 5-6: Standards for Neighbourhood Noise .......................................... 5-12
- Table 5-7: Results of Noise Survey in Chebel and Soreze areas ................... 5-13
- Table 6-1: Details of Considerations for the Traffic Surveys .......................... 6-1
- Table 6-2: Road Network Status ................................................................. 6-2
- Table 6-3: Result of Level of Service Analysis at Signalised Intersections ...... 6-5
- Table 6-4: Result of level of service analysis at unsignalised intersection ....... 6-5
- Table 7-1: Factors to be taken into account for impact estimation ................. 7-1
- Table 7-2: Rating of Impact ................................................................. 7-1
- Table 7-3: Rating the probability of a risk ..................................................... 7-2
- Table 7-4: Determining the Significance of a Predicted Impacts ................... 7-2
- Table 8-1: A1-M1 Link Road Required Lanes ............................................... 8-4
- Table 8-2: Result of A1-M1 total classification analysis ................................. 8-5
- Table 9-1: Environmental Monitoring Plan .................................................. 9-8
