CHAPTER 3: PROJECT DESCRIPTION

3.1 Project Description
3.1.1 Organisation structure

3.2 Characteristics of cement product to be stored
3.2.1 Cement
3.2.2 Ordinary Portland Cement

3.3 Ship offloading

3.4 Storage silos for cement
3.4.1 Setbacks
3.4.2 Surface treatment against corrosion
3.4.3 Silos containment
3.4.4 Silos accessories
3.4.5 Access stairways and walkways
3.4.6 Silos foundations
3.4.7 Earthing and Lightning protection for silos
3.4.8 Venting and de-dusting system
3.4.9 Proposed piping system for ship unloading
3.4.10 Delivery to cement tankers
3.4.11 Weighing system
3.4.12 Air pumping station
3.4.13 Conveying system to bagging unit

3.5 The cement bagging plant
3.5.1 Warehousing/storage facility

3.6 Infrastructures
3.6.1 Site offices & Amenities
3.6.2 Security
3.6.3 Water storage facility

3.7 Wastewater disposal

3.8 Electrical
3.8.1 Power supply
3.8.2 Site and yard lighting

3.9 Control and instrumentation
3.9.1 Control and remote monitoring of alarms and trips
3.9.2 CCTV

3.10 Access to site

3.11 Storm water drain

3.12 Internal access and parking lots

3.13 Landscaping

3.14 Proposed staff strength

3.15 Proposed schedule for project implementation

CHAPTER 4: METHOD OF ASSESSMENT OF BASELINE ENVIRONMENT

4.1 Introduction
4.2 Methodology of baseline data collection
  4.2.1 Noise assessment survey 50
  4.2.2 Geotechnical and soil investigation 51
  4.2.3 Traffic impact assessment 52
  4.2.4 Ambient air monitoring 55
4.3 Consultation with stakeholders 56
4.4 Identification of further studies 59

CHAPTER 5: ASSESSMENT OF ENVIRONMENTAL IMPACTS
5.1 Introduction 60
5.2 Predicted environmental impacts 60
  5.2.1 Impacts on air quality 60
    5.2.1.1 Dust emissions during construction phase 60
    5.2.1.2 Emission of cement dust during operational phase 60
  5.2.2 Impacts from cement spills 63
    5.2.2.1 Impacts from cement spills from Marine environment 64
    5.2.2.2 Impacts from cement spills on land 64
  5.2.3 Impacts on Land 65
    5.2.3.1 Generation of solid waste 65
      5.2.3.1.1 Construction waste 65
      5.2.3.1.2 Domestic solid waste 65
      5.2.3.1.3 Waste cement 65
      5.2.3.1.4 Industrial waste 66
    5.2.3.2 Generation of wastewater 66
    5.2.3.3 Surface run-offs 67
    5.2.3.4 Waste oil from workshop 67
  5.2.4 Impacts on Noise level 67
  5.2.5 Impacts on Aesthetics 69
  5.2.6 Impact on Fauna & Flora 70
  5.2.7 Impact on climate change 70

CHAPTER 6: MITIGATION OF ENVIRONMENTAL IMPACTS
6.1 Introduction 71
6.2 Mitigation of environmental impacts 71
  6.2.1 Impacts on Air Quality 71
    6.2.1.1 Dust emissions during construction phase 71
    6.2.1.2 Emission of cement dust during operational phase 71
  6.2.2 Impact from cement spills 74
    6.2.2.1 Impacts from cement spills on marine environment 74
    6.2.2.2 Impacts from cement spills on land 75
6.2.3 Impacts on land 76
   6.2.3.1 Generation of solid waste 76
      6.2.3.1.1 Construction waste 76
      6.2.3.1.2 Domestic solid waste 78
      6.2.3.1.3 Waste cement 78
      6.2.3.1.4 Industrial waste 79
   6.2.3.2 Generation of domestic wastewater 79
   6.2.3.3 Surface run-offs 79
   6.2.3.4 Waste oil from workshop 79
6.2.4 Impacts on Noise level 80
6.3 Matrix summarizing assessment and mitigation of impacts 82

CHAPTER 7: RESIDUAL IMPACTS
7.1 Introduction 83
7.2 Impacts from Natural Disaster risks 83
   7.2.1 Emission occurring from cyclonic condition/lightning 84
   7.2.2 Tsunami 84
7.3 Reaction of cement with water 85

CHAPTER 8: SOCIAL IMPACTS
8.1 Introduction 86
8.2 Socio impacts 86
   8.2.1 Job creation 86
   8.2.2 Socio cultural aspect 86
   8.2.3 Impact on Fishing Community 87
   8.2.4 Traffic impacts 88
   8.2.5 Hazards impacts on surrounding undertaking 88
8.3 Socio- Economic Impacts 89
8.4 Capital Investment 91
8.5 Liability 91
8.6 Re-settlement Action Plan 92

CHAPTER 9 : ENVIRONMENTAL MANAGEMENT PLAN
9.1 Introduction 93
9.2 Objectives of the EMP 94
9.3 Potential impacts, their Mitigation and Monitoring plan 95

CHAPTER 10 : ENVIRONMENTAL RISKS ASSESSMENT
10.1 Introduction 106
10.2 Risks during construction phase 106
10.3 Risks during operation 112
   10.3.1 Risks against fire 112
   10.3.2 Contingency planning 113
10.4 Emergency Response Plan 114
  10.4.1 Product Handling and Transfer 115
  10.4.2 Fire-fighting and emergency response plan 117

CHAPTER 11: ENHANCEMENT OPPORTUNITIES 118

CHAPTER 12: ALTERNATIVE TO PROPOSED UNDERTAKING 119

  12.1 Introduction 119
  12.2 Alternatives to project 119
    12.2.1 Alternative location 119
    12.2.2 Alternative design 120
      12.2.2.1 Bagged against bulk delivery 121
    12.2.3 Alternative undertaking 122
  12.3 Do-nothing scenario 122

CHAPTER 13: DECOMMISSIONING 124

CHAPTER 14: CONCLUSION 125

References

LIST OF ANNEXES

  1 Site Location plans
  2 Certificate of Incorporation and Business Registration Card
  3 Letter of Reservation
  4 Topographical plan
  5 Meteorological data for Port Louis Harbour
  6 Seawater quality test results
  7 Land Use Map
  8 Site layout plan
  9 Process flow chart and Layout/elevation plan of bagging plant
 10 Material Safety Data Sheet for OPC
 11 Proposed routing of pipelines
 12 Design of wastewater disposal system
 13 Gantt chart
 14 Noise survey results, location plan and noise propagation
 15 Coreholes log report
 16 Traffic Impact Assessment report
 17 Ground level concentration of PM$_{10}$
