

AAP Mauritius National Workshop on Capitalization of Experiences on Climate Change Adaptation

18-21 September, 2012

Capitalization Challenges

- Building an institutional memory
- Better understanding of local processes
- Strengthening of collaborative dynamics of projects and initiatives
- Building an organisation learning culture
- Improving the conduct of activities or designing of new projects

Objectives of capitalization

- Draw/share lessons
- Influence others
- Resource mobilization
- Valuing local communities experiences
- Building internal capacity
- Generatinig of tools for mutual and collective learning

Enabling conditions

- ❑ Strong/unambiguous commitment both at individual and organization levels
- ❑ Availability and accessibility of critical information
- ❑ Capacity and skills to carry out the capitalisation process
- ❑ Availability of resources: financial, human, technical, etc.

Synthesis questions

- What are the capitalization challenges of your project?
- What are the capitalization objectives of your project?

Stakeholders analysis template

| Stakeholders | What information are they custodians | Roles and responsibilities in the capitalization process | Relationship | Expected benefits of the process |
|--------------|--------------------------------------|--|--------------|----------------------------------|
| | | | | |
| | | | | |

Synthesis template on planning process

| Axes | Synthesis of content |
|--|----------------------|
| <i>Describe the context</i> | |
| <i>Objectives of capitalization</i> | |
| <i>Beneficiary groups</i> | |
| <i>Stakeholders involved in the process and their roles</i> | |
| <i>Reflection on the facilitation process</i> | |
| <i>Inventory of the types of information to be collected</i> | |
| <i>Implementation Schedule</i> | |
| <i>Elements of cost analysis</i> | |
