1.0 Introduction

In the context of World Environment Day (WED) 2023, the Ministry of Environment, Solid Waste Management and Climate Change in collaboration with various stakeholders had organised the First Edition of the Environmental Awards. Efforts of institutions in taking sustainability measures and best environmental initiatives that, *inter alia*, reduce their carbon footprint, adopt durable and sustainable plastic alternatives, optimise use of resources, biodiversity conservation, or otherwise curb down environmental nuisances, amongst others were rewarded. Showcasing these best environmental initiatives would encourage similar future endeavours for a green and clean society.
