

LADIES AND GENTLEMEN, GOOD MORNING.

LET ME PRESENT MYSELF. GERARD LI, DIRECTOR OF EN RECYCLERS LTD.

EN RECYCLERS LTD WAS SET UP AS A PRODUCTION FACILITY DEDICATED TO RECYCLING OF CERTAIN TYPES PLASTIC WASTES. WE CONVERT, WHAT WE CALL, PLASTIC WASTES INTO RAW MATERIALS. OUR RECYCLED MATERIALS ARE A GOOD SUBSTITUTE TO VIRGIN GRADE MATERIALS. THEY ARE CHEAPER AND ALSO ECOLOGICAL.

EN RECYCLERS LTD WAS SET UP IN 2018. PREVIOUSLY, IT WAS AN INTERNAL PRODUCTION UNIT OF ANOTHER PLASTIC MANUFACTURING COMPANY.

TO EFFICIENTLY MANAGE THE PROCESS OF PLASTIC RECYCLING ON THE ISLAND AND CATER FOR THE GROWING AMOUNT OF PLASTIC WASTES BEING DISPOSED OF, IT WAS DECIDED TO SEPARATE THE RECYCLING UNIT INTO A COMPLETELY INDEPENDENT UNIT. EN RECYCLERS LTD NOW RECYCLES PLASTIC WASTES WHICH COME FROM VARIOUS SOURCES ALL OVER THE ISLAND.

OUR PLASTIC WASTES ARE SUPPLIED TO US BY VARIOUS SUB CONTRACTORS AND ARE SOURCED FROM ALL OVER THE ISLAND. IT CAN BE FROM WAREHOUSES, DUMPING SITES, SUPERMARKETS, OTHER FACTORIES, ETC.

WE ALSO WORK IN COLLABORATION WITH VARIOUS COMPANIES WHOSE POLICY IS TO PROPERLY DISPOSE OF ALL THE PLASTIC WASTES THEY GENERATE FROM THEIR OPERATIONS.

THE PLASTIC WASTES ARE CLEANED, SORTED AND GO THROUGH A PRODUCTION PROCESS AND THE END PRODUCT IS PLASTIC PELLETS OR RECYCLED PLASTIC RAW MATERIALS.

SOME GRADES OF PLASTIC WASTES ARE NOT SUITABLE TO BE TRANSFORMED INTO GOOD RAW MATERIALS. THESE WASTES ARE RECYCLED AND CONVERTED INTO PLASTIC PLANKS.

OUR PLASTIC PLANKS ARE A GOOD ECOLOGICAL ALTERNATIVE TO WOOD AND ARE VERY APPROPRIATE FOR OUTDOOR APPLICATIONS IN OUR TROPICAL WEATHER.

OUR PLASTIC PLANKS ARE USED FOR VARIOUS PURPOSES. THEY ARE USED IN FENCES AS ALTERNATIVE TO WOOD. THEY ARE USED TO MANUFACTURE OUTDOOR FURNITURE SUCH AS PIC-NIC TABLES, BENCHES OR ANY OTHER TYPE OF FURNITURE. THEY ARE ALSO USED TO MAKE PALLETS. THESE ITEMS ARE CURRENTLY BEING EXHIBITED OUTSIDE.

MOST OF THE RAW MATERIALS WE PRODUCE ARE USED BY A SISTER COMPANY TO MANUFACTURE PRODUCTS MADE OF 100% RECYCLED PLASTICS SUCH AS GARBAGE BAGS. WE ALSO SUPPLY OTHER MANUFACTURERS AS WELL.

AS MENTIONNED EARLIER, WE ONLY RECYCLE CERTAIN TYPES OF PLASTICS. UNFORTUNATELY, NOT ALL PLASTICS ARE RECYCLABLE. FOR THE FUTURE, WE ENVISION TO RECYCLE MORE OF OTHER TYPES OF PLASTICS WHICH WILL BE MADE AVAILABLE TO OTHER OPERATORS.

THIS WILL HELP TO REDUCE THE AMOUNT OF PLASTIC WASTES WHICH OTHERWISE WILL BE DUMPED AT MARE CHICOSE LANDFILL AND THE RECYCLED PLASTIC MATERIALS WHICH ARE CHEAPER THAN IMPORTED MATERIALS WILL HELP OPERATORS REDUCE THEIR MANUFACTURING COST.

THANK YOU.
