Setting up of an Online Repository - MV Wakashio oil spill

The Ministry of Environment, Solid Waste Management and Climate Change is currently in the process of setting up an online repository to collect all information (including reports, photos, articles, videos) pertaining to MV Wakashio oil spill, the affected sites and their vicinities. The information collected will be screened and used for the environmental, social and economical impacts assessment.

The Public is hereby informed that an online system is being established. In the meantime, any information related to the MV Wakashio oil spill can be sent to this Ministry on the email address: envirodata@govmu.org

Please note that confidentiality of information will be maintained.
