

**LIST OF CONDITIONS FOR PROPOSED MAINTENANCE DREDGING AT  
JETTY NO. 3 AND JETTY NO. 7, QUAY D, MER ROUGE BY FROID  
DES MASCAREIGNES [ENV/DOE/EIA/1682]**

1. Notwithstanding all the other permits and clearances, the following permits shall be obtained and a copy submitted to the Director of Environment:
  - i. An Interference Permit for each of the area to be dredged as per the Fisheries & Marine Resources (Marine Protected Areas) Regulations 2001 and amended regulations 2007 from the Ministry of Ocean Economy, Marine Resources, Fisheries, Shipping & Outer Island.

All conditions attached therewith shall be scrupulously observed.

2. The development shall be undertaken as per the mitigating measures stated in the EIA report and additional information submitted unless as otherwise advised herein.
3. The Department of Environment shall be informed in writing of the date of commencement of works for monitoring purposes. A detailed programme of work and implementation plans shall be submitted to the Department of Environment, Ministry of Environment Sustainable Development, Disaster and Beach Management, the Mauritius Ports Authority and the Ministry of Ocean Economy, Marine Resources, Fisheries, Shipping & Outer Island prior to the start of works.
4. In accordance with section 18(2)(f) of the Environment Protection Act 2002, the proponent shall submit to the Director of Environment, Ministry of Environment Sustainable Development, Disaster and Beach Management an Environmental Monitoring Plan for approval prior to start of dredging works. The proponent shall thereafter submit reports on the implementation accordingly. The Environmental Monitoring Plan shall contain the baseline data on the state of the marine environment at the project site. In addition, any future maintenance dredging works to be undertaken shall require a new detailed EMP for approval by the Director of Environment, Ministry of

Environment Sustainable Development, Disaster and Beach Management prior to start of works.

For any future maintenance dredging, a new Interference Permit shall be sought as and when required.

5. The Department of Environment shall be informed in writing of the date of completion of all works on site for monitoring purposes and to ensure compliance with the conditions of the EIA licence as well as proposals in the EIA report and additional information.
6. During the dredging works the adjoining sites shall be effectively protected against sediment entrainment with double lines geotextile screens which shall be regularly maintained.
7. No waste of any type shall have access to the sea.
8. The implementation of the project shall be to the satisfaction of the Fisheries Division and Mauritius Ports Authority so as not to cause any obstruction to navigation at sea.
9. All dredged material shall be temporarily disposed of on the site leased by the Mauritius Ports Authority. All conditions attached in the letter from Mauritius Ports Authority, bearing reference SR/BC/MNR/067/15 and dated 17 August 2015 (copy enclosed) shall be complied with.
10. An adequate buffer zone shall be maintained between the temporary storage site earmarked for the dredged material and petroleum pipelines passing near the site to the satisfaction of the Mauritius Ports Authority.
11. The final disposal of all dredged material shall be as per the recommendations of the Solid Waste Management Division.
12. The plant and equipment that will be used on site during the construction period shall be regularly serviced and maintained in good condition to minimize risk of air and noise pollution.

13. Necessary measures must be taken to prevent any hydrocarbon spills from vehicles and from the stand-by generator and diesel storage tanks to infiltrate through the soil so as to avoid the contamination of the underground and surface waters.
14. Necessary measures shall be taken during the dredging operations so as not to cause any nuisance to the public and surrounding environment.
15. The Director reserves the right to request for submissions and to impose additional conditions.
16. Any proposed deviation shall be subject to an application to the Director of Environment. No deviation or part thereof shall be executed prior to the determination of the application by the Director.

**Note:**

*According to Section 15 (2)(c) of the Environment Protection Act, no proponent shall commence or cause to be commenced any undertaking more than three years after the issue of an EIA licence unless the Minister in circumstances beyond the control of the proponent, otherwise determines in respect of that undertaking*
