Executive S	umma	ry	viii
Chapter 1.	Introd	luction & Methods of Assessment of Impact	1
	1.1	The Promoter	1
	1.2	The Proposed Project	1
	1.3	Job Opportunities	2
	1.4	Need for an Environment Impact Assessment	2
	1.5	Methods of Assessment of Direct Environment	2
		Impact	
Chapter 2.	Projec	et Site Location & Description	5
	2.1	Project Location/Surrounding	5
	2.2	Zoning	9
	2.3	Names, Addresses & Qualifications of EIA Consultant	10
	2.4	Existing Land Use	10
	2.5	Ownership of Land	11
	2.6	Access to Site	11
	2.7	Infrastructure & Public Utilities	13
	2.8	Climatic Conditions	13
	2.9	Geology, Landform & Soil Characteristics	13
	2.10	Topography	14
	2.11	Water Resources	14
	2.12	Flora & Fauna	14
	2.13	Value of Project Site as Designated Site	15
	2.14	Cultural Heritage	15
	2.15	Similar Projects	15
	2.16	Mineral Resources	15
	2.17	Site Constraints	16
Chapter 3.	Project Justification / Description and Legal &		
	Administrative Framework		

3.2   Project Description   17		3.1	Project j	ustification	17	
3.4   Statutory Requirements   20		3.2	Project 1	Description	17	
3.4.1   Land Conversion Permit   20		3.3	Alternative to the Proposed Undertaking			
3.4.2   Environmental Impact Assessment (EIA)   License     3.4.3   Morcellement Permit   21     3.5   Other Institutional Clearances & requirements   21     Chapter 4.   Provision of Infrastructure & Services   23     4.1   Roads   24     4.2   Road side drains   25     4.3   Estimation of Traffic Flow   25     4.4   Water Supply & Development Costs   25     4.5   Detailed design of Internal Reticulation Water Network   26     4.6   Statutory Requirements   26     4.7   Electricity   26     4.8   Telecommunication Requirements   27     4.10   Street Lighting   27     4.11   Fire Fighting System   28     4.12   Building   28     4.13   Schedule of Implementation of Project   28     Chapter 5.   Predicted Environmental Impacts   29     5.1   The Rationale   29     5.2   Impact Identification   30     5.3.1   Disruption Due to Construction   30     5.4.1   Domestic Wastewater   31     5.4.2   Storm Run-Off   32     5.4.3   Solid Waste   32     5.4.4   Air Emissions   32     5.4.5   Noise   33		3.4	Statutory Requirements			
License   3.4.3   Morcellement Permit   21			3.4.1	Land Conversion Permit	20	
3.4.3   Morcellement Permit   21			3.4.2	Environmental Impact Assessment (EIA)	20	
3.5   Other Institutional Clearances & requirements   21				License		
Chapter 4.       Provision of Infrastructure & Services       23         4.1       Roads       24         4.2       Road side drains       25         4.3       Estimation of Traffic Flow       25         4.4       Water Supply & Development Costs       25         4.5       Detailed design of Internal Reticulation Water Network       26         4.6       Statutory Requirements       26         4.7       Electricity       26         4.8       Telecommunication Requirements       27         4.9       Combined Utilities       27         4.10       Street Lighting       27         4.11       Fire Fighting System       28         4.12       Building       28         4.13       Schedule of Implementation of Project       28         Chapter 5.       Predicted Environmental Impacts       29         5.1       The Rationale       29         5.2       Impact Identification       30         5.3       Impact During Construction Phase       30         5.4.1       Domestic Wastewater       31         5.4.2       Storm Run-Off       32         5.4.3       Solid Waste       32			3.4.3	Morcellement Permit	21	
4.1 Roads  4.2 Road side drains  25  4.3 Estimation of Traffic Flow  25  4.4 Water Supply & Development Costs  25  4.5 Detailed design of Internal Reticulation Water Network  4.6 Statutory Requirements  26  4.7 Electricity  28  4.9 Combined Utilities  27  4.10 Street Lighting  27  4.11 Fire Fighting System  28  4.12 Building  28  4.13 Schedule of Implementation of Project  28  Chapter 5. Predicted Environmental Impacts  5.1 The Rationale  5.2 Impact Identification  5.3 Impact During Construction Phase  5.4 Impact During Construction Phase  5.4.1 Domestic Wastewater  31  5.4.2 Storm Run-Off  32  5.4.3 Solid Waste  32  5.4.4 Air Emissions  32  5.4.5 Noise  33		3.5	Other In	stitutional Clearances & requirements	21	
4.2       Road side drains       25         4.3       Estimation of Traffic Flow       25         4.4       Water Supply & Development Costs       25         4.5       Detailed design of Internal Reticulation Water Network       26         4.6       Statutory Requirements       26         4.7       Electricity       26         4.8       Telecommunication Requirements       27         4.9       Combined Utilities       27         4.10       Street Lighting       27         4.11       Fire Fighting System       28         4.12       Building       28         4.13       Schedule of Implementation of Project       28         Chapter 5.       Predicted Environmental Impacts       29         5.1       The Rationale       29         5.2       Impact Identification       30         5.3       Impact During Construction Phase       30         5.4       Impact During Operational Phase       31         5.4.1       Domestic Wastewater       31         5.4.2       Storm Run-Off       32         5.4.3       Solid Waste       32         5.4.5       Noise       33	Chapter 4.	Provision of Infrastructure & Services			23	
4.3       Estimation of Traffic Flow       25         4.4       Water Supply & Development Costs       25         4.5       Detailed design of Internal Reticulation Water Network       26         4.6       Statutory Requirements       26         4.7       Electricity       26         4.8       Telecommunication Requirements       27         4.9       Combined Utilities       27         4.10       Street Lighting       27         4.11       Fire Fighting System       28         4.12       Building       28         4.13       Schedule of Implementation of Project       28         Chapter 5.       Predicted Environmental Impacts       29         5.1       The Rationale       29         5.2       Impact Identification       30         5.3       Impact During Construction Phase       30         5.3.1       Disruption Due to Construction       30         5.4.1       Domestic Wastewater       31         5.4.2       Storm Run-Off       32         5.4.3       Solid Waste       32         5.4.5       Noise       33		4.1	Roads		24	
4.4   Water Supply & Development Costs   25     4.5		4.2	Road sid	de drains	25	
4.5   Detailed design of Internal Reticulation Water Network   26     4.6   Statutory Requirements   26     4.7   Electricity   26     4.8   Telecommunication Requirements   27     4.9   Combined Utilities   27     4.10   Street Lighting   27     4.11   Fire Fighting System   28     4.12   Building   28     4.13   Schedule of Implementation of Project   28     Chapter 5.   Predicted Environmental Impacts   29     5.1   The Rationale   29     5.2   Impact Identification   30     5.3   Impact During Construction Phase   30     5.3   Impact During Operational Phase   31     5.4.1   Domestic Wastewater   31     5.4.2   Storm Run-Off   32     5.4.3   Solid Waste   32     5.4.4   Air Emissions   32     5.4.5   Noise   33		4.3	Estimation of Traffic Flow			
Network		4.4	Water Supply & Development Costs			
4.6       Statutory Requirements       26         4.7       Electricity       26         4.8       Telecommunication Requirements       27         4.9       Combined Utilities       27         4.10       Street Lighting       27         4.11       Fire Fighting System       28         4.12       Building       28         4.13       Schedule of Implementation of Project       28         Chapter 5.       Predicted Environmental Impacts       29         5.1       The Rationale       29         5.2       Impact Identification       30         5.3       Impact During Construction Phase       30         5.3.1       Disruption Due to Construction       30         5.4       Impact During Operational Phase       31         5.4.1       Domestic Wastewater       31         5.4.2       Storm Run-Off       32         5.4.3       Solid Waste       32         5.4.5       Noise       33		4.5	Detailed	Detailed design of Internal Reticulation Water		
4.7       Electricity       26         4.8       Telecommunication Requirements       27         4.9       Combined Utilities       27         4.10       Street Lighting       27         4.11       Fire Fighting System       28         4.12       Building       28         4.13       Schedule of Implementation of Project       28         Chapter 5.       Predicted Environmental Impacts       29         5.1       The Rationale       29         5.2       Impact Identification       30         5.3       Impact During Construction Phase       30         5.3.1       Disruption Due to Construction       30         5.4       Impact During Operational Phase       31         5.4.1       Domestic Wastewater       31         5.4.2       Storm Run-Off       32         5.4.3       Solid Waste       32         5.4.5       Noise       33			Network			
4.8       Telecommunication Requirements       27         4.9       Combined Utilities       27         4.10       Street Lighting       27         4.11       Fire Fighting System       28         4.12       Building       28         4.13       Schedule of Implementation of Project       28         Chapter 5.       Predicted Environmental Impacts       29         5.1       The Rationale       29         5.2       Impact Identification       30         5.3       Impact During Construction Phase       30         5.3.1       Disruption Due to Construction       30         5.4       Impact During Operational Phase       31         5.4.1       Domestic Wastewater       31         5.4.2       Storm Run-Off       32         5.4.3       Solid Waste       32         5.4.4       Air Emissions       32         5.4.5       Noise       33		4.6	Statutory Requirements			
4.9       Combined Utilities       27         4.10       Street Lighting       27         4.11       Fire Fighting System       28         4.12       Building       28         4.13       Schedule of Implementation of Project       28         Chapter 5.       Predicted Environmental Impacts       29         5.1       The Rationale       29         5.2       Impact Identification       30         5.3       Impact During Construction Phase       30         5.3.1       Disruption Due to Construction       30         5.4       Impact During Operational Phase       31         5.4.1       Domestic Wastewater       31         5.4.2       Storm Run-Off       32         5.4.3       Solid Waste       32         5.4.4       Air Emissions       32         5.4.5       Noise       33		4.7	Electricity			
4.10       Street Lighting       27         4.11       Fire Fighting System       28         4.12       Building       28         4.13       Schedule of Implementation of Project       28         Chapter 5. 4.13       Schedule of Implementation of Project       28         Chapter 5.       Predicted Environmental Impacts       29         5.1       The Rationale       29         5.2       Impact Identification       30         5.3       Impact During Construction Phase       30         5.3.1       Disruption Due to Construction       30         5.4       Impact During Operational Phase       31         5.4.1       Domestic Wastewater       31         5.4.2       Storm Run-Off       32         5.4.3       Solid Waste       32         5.4.4       Air Emissions       32         5.4.5       Noise       33		4.11	Fire Fighting System			
Chapter 5.         Predicted Environmental Impacts         29           5.1         The Rationale         29           5.2         Impact Identification         30           5.3         Impact During Construction Phase         30           5.3.1         Disruption Due to Construction         30           5.4         Impact During Operational Phase         31           5.4.1         Domestic Wastewater         31           5.4.2         Storm Run-Off         32           5.4.3         Solid Waste         32           5.4.4         Air Emissions         32           5.4.5         Noise         33		4.12	Building			
5.1       The Rationale       29         5.2       Impact Identification       30         5.3       Impact During Construction Phase       30         5.3.1       Disruption Due to Construction       30         5.4       Impact During Operational Phase       31         5.4.1       Domestic Wastewater       31         5.4.2       Storm Run-Off       32         5.4.3       Solid Waste       32         5.4.4       Air Emissions       32         5.4.5       Noise       33		4.13	Schedule of Implementation of Project			
5.2       Impact Identification       30         5.3       Impact During Construction Phase       30         5.3.1       Disruption Due to Construction       30         5.4       Impact During Operational Phase       31         5.4.1       Domestic Wastewater       31         5.4.2       Storm Run-Off       32         5.4.3       Solid Waste       32         5.4.4       Air Emissions       32         5.4.5       Noise       33	Chapter 5.	Predi	cted Envi	ronmental Impacts	29	
5.3       Impact During Construction Phase       30         5.3.1       Disruption Due to Construction       30         5.4       Impact During Operational Phase       31         5.4.1       Domestic Wastewater       31         5.4.2       Storm Run-Off       32         5.4.3       Solid Waste       32         5.4.4       Air Emissions       32         5.4.5       Noise       33		5.1	The Rat	ionale	29	
5.3.1         Disruption Due to Construction         30           5.4         Impact During Operational Phase         31           5.4.1         Domestic Wastewater         31           5.4.2         Storm Run-Off         32           5.4.3         Solid Waste         32           5.4.4         Air Emissions         32           5.4.5         Noise         33		5.2	Impact 1	Identification	30	
5.4       Impact During Operational Phase       31         5.4.1       Domestic Wastewater       31         5.4.2       Storm Run-Off       32         5.4.3       Solid Waste       32         5.4.4       Air Emissions       32         5.4.5       Noise       33		5.3	Impact During Construction Phase		30	
5.4.1       Domestic Wastewater       31         5.4.2       Storm Run-Off       32         5.4.3       Solid Waste       32         5.4.4       Air Emissions       32         5.4.5       Noise       33			5.3.1	Disruption Due to Construction	30	
5.4.2       Storm Run-Off       32         5.4.3       Solid Waste       32         5.4.4       Air Emissions       32         5.4.5       Noise       33		5.4	Impact 1	During Operational Phase	31	
5.4.3       Solid Waste       32         5.4.4       Air Emissions       32         5.4.5       Noise       33			5.4.1	Domestic Wastewater	31	
5.4.4         Air Emissions         32           5.4.5         Noise         33			5.4.2	Storm Run-Off	32	
5.4.5 Noise 33			5.4.3	Solid Waste	32	
			5.4.4	Air Emissions	32	
5.4.6 Water Resources 33			5.4.5	Noise	33	
			5.4.6	Water Resources	33	

		5.4.7	Flora & Fauna	34
		5.4.8	Geology & Soil	34
		5.4.9	Landscape Effect	35
		5.4.10	Socio-economics Impacts	35
Chapter 6.	Mitiga	Mitigating Measures		
	6.1	6.1 Negative impact of the project		
	6.2	Disruption due to construction		36
	6.3	Wastew	ater Disposal	37
		6.3.1	The Approach	37
		6.3.2	Soil Absorption Characteristics	37
		6.3.3	Sewerage Treatment and Disposal	38
		6.3.4	Preliminary Designs Of Septic Tank –For	38
			Individual Household	
		6.3.5	Absorption Pit Details	38
		6.3.6	Detailed Design	39
		6.3.7	Water Table and Degradation Action	39
		6.3.8	Desludging	39
		6.3.9	Statutory Requirements	39
	6.4	Storm Run-Off		39
	6.5	Solid Waste		41
	6.6	Noise		41
Chapter 7.			Management Plan during Implementation	42
	& at Operational Stage			
	7.1		aring Construction	42
		7.1.1	Dust	42
		7.1.2	Fumes	42
		7.1.3	Noise Pollution	42
		7.1.4	Measures to be Implemented by	42
			Prospective Contractors	
	7.2	EMP During Operation Stage		44
	7.3	Environmental Monitoring Matrix Plan –		44
			action Phase	
	7.4	Environmental Monitoring Matrix Plan – Operation		44
Chantan	Committee	Phase		40
Chapter 8.	Conc	lusion		48

LIST OF TABLES	
Minimum distance between the plot of land and selected	
features	
Plot directory showing the lot numbers and their	18
respective area.	
Area & % land use of the lots	19
Assessment groups on which to assess impacts	30
Environmental Monitoring Matrix Plan – Construction	
Phase	
Environmental Monitoring Matrix Plan – Operation Phase	47
LIST OF PLATES	
The Northern Side of the Project Site	5
The Eastern Side of the Project Site	6
The Western Side of the project site	6
Proposed Project site	7
Round About along Motorway M2	8
Gros Bois - L'Escalier Road (B79) linking to Round about	8
along M2	
The proposed site under sugarcane cultivation	10
Site access from Gros Bois – L'Escalier Road (B79)	11
Northern Entrance to the site from Gros Bois – L'Escalier	12
Road (B79)	
Southern Entrance to the site from Gros Bois – L'Escalier	12
Road (B79).	
Similar development next to the project site	15
Present State of the Project Site	34
LIST OF ANNEXES	
Copy of Incorporation Certificate - Change of name	
	Minimum distance between the plot of land and selected features  Plot directory showing the lot numbers and their respective area. Annex A2	Business Registration Card (BRC)
Annex A3	Letter of Ministry of Housing Letter requesting for an EIA
Annex B1	Context Plan
Annex B2	Copy of Land Conversion Permit
Annex B3	Authorization letter from Promoter
Annex B4	Notarial Certificate
Annex B5	Geo-technical report
Annex B6	Layout with contour
Annex B7	Outline Planning Scheme for Gros-Bois
Annex C1	Proposed Morcellement Layout Plan
Annex C2	Letter to Wastewater Management Authority
Annex D1	Engineering report
Annex D2	Roadside drains section
Annex D3	Underground Electrical Layout
Annex D4	Underground Telephone Layout
Annex E1	Drainage Layout Plan
Annex E2	Details of the De-siltration /hydrocarbon traps
Annex F1	Details of Septic Tank
Annex F2	Details of Absorption Pit
