

Table of Contents

NON-TECHNICAL SUMMARY	5
Chapter 1 Introduction.....	8
Brief Description about the Company	8
Asphalt Plant (Overview)	8
Project Team	8
Chapter 2 Project Description	9
Projects Particulars	9
Project Justification	12
Project Alternatives	13
Do Nothing Option	13
Best Alternative	10
Schedule of Implementation	10
Chapter 3 Policy, Legal and Administrative Framework	11
Project Promoter	11
Land Ownership	11
Legal Requirements	11
Zoning	12
Licence Application	12
Building and Land Use Permit	12
Other Clearances	13
Chapter 4 Site Description and Characteristics	14
Site Location	14
Site Access	14
Site Boundaries	16
Site Topography	16
Surrounding Environment	16
Environmental Sensitivity	17
Hydrological Characteristics	19

Rainfall	19
Temperature	20
Wind Regime	21
Site Geology	21
Chapter 5 Technical Characteristics	23
Plant Overview	23
Continuous Electronic Belt Weighting System	27
Drying and Mixing Drums	28
Burner	29
Load Out Conveyor	29
Bitumen Tanks and Auxiliary Equipment	30
Pollution Control Unit	30
Control Cabinet	31
Salient Features of control panel:	32
Process Description	32
Raw Materials Constituents	33
Aggregates	33
The Paving Bitumen	33
Storage of Materials	34
Storage of Bitumen	34
Storage of Aggregates	34
Diesel	34
Transportation	34
Bulk Bitumen	34
Aggregates	35
Diesel	35
Asphaltic Concrete	35
Chapter 6 Infrastructure and Utility Planning	34
Water Requirements	34
Water Supply Network	34

Water Conservation	34
Electrical Requirements	36
Telecommunication Services	36
Fuel Requirements	36
Chapter 7 Predicted Environmental Impacts & Mitigation Measures	37
Overview	37
Construction Phase	38
Mitigating Measures during Construction	39
Risk of Soil Erosion	39
Noise and Vibration	40
Traffic Implications	40
Dust Emission	40
Public Nuisance	40
Waste Generation	40
Visual Aesthetic	40
Operation Phase	43
Dust Emission	44
Sources and Impact of Dust Emission	44
Mitigating Measures	45
Gaseous and Odour Emissions	46
Sources of Gaseous and Odour Emissions	46
Impacts of Gaseous and Odour Emissions	47
Mitigating Measures	48
Noise Emission	49
Sources of Noises	49
Impact of Noises	49
Mitigating Measures	49
Traffic Implications	50
Sources of Traffic Raw materials	50
Raw Materials	50

Distribution of Asphaltic Concrete	50
Traffic Reduction	50
Traffic Impact	50
Solid Waste Generation	51
Sources of Solid Waste	51
Mitigating Measures Sludge Disposal	51
Domestic Waste Disposal	51
Wastewater Generation	52
Sources of Wastewater Process Wastewater	52
Domestic Wastewater	52
Mitigating Measures	52
Process Wastewater	52
Domestic Wastewater	52
Impact on Land Use	53
Visual Impacts	53
Impacts on Human	56
Health Problems	56
Mitigating Measures for Health and Safety	56
Chapter 8 Socio Economic Impacts	62
Employment Opportunities	62
Economic Considerations	62
Chapter 9 Risk Assessment	63
Fire Hazards	63
Risk of Fire Outbreak	63
Precautions and Contingency Plan	63
Spillage	64
Risk of Bitumen and Diesel Spillage	64
Precautions and Contingency Plan	64
Cyclonic Conditions	64
Risk of Cyclones	64

Precautions and Contingency Plan.....	64
Chapter 10 Environmental Monitoring Plan.....	65
Annex 1	68
Annex 2	74
Annex 3	76
Annex 4	79
Annex 5	81
Annex 6	96
Annex 7	108
Annex 8	113
Annex 9	121
Annex 10	127
Annex 11	135
Annex 12	145
