

TABLE OF CONTENTS

Non Technical Summary	4
1.0 Introduction	6
1.1 Background Information	6
1.2 The Promoter	6
1.3 The Project Implementation and Outcome	8
1.4 Project Objectives.....	9
1.5 Project justifications.....	9
2.0 Site and Project Description	10
2.1 Site Description	11
2.1.1 Site Characteristics	11
2.1.2 Existing flora and fauna.....	11
2.1.3 Development in the surrounding area.....	12
2.1.4 Zoning of proposed site	12
2.2 Project Description	14
2.2.1 Project general layout.....	14
2.2.2 How is electricity produced from the sun?	16
2.2.3 Solar array to be used	17
2.2.4 PV Arrays Fixation Frame	18
2.2.5 Wiring of the arrays	20
2.2.6 The Inverter	21
2.2.7 Power storage	21
2.2.8 The step-up transformer	24
2.2.9 The power evacuation line	24
3.0 Geotechnical investigation.....	25
3.1 Earlier uses and state of the site	25
3.2 Preliminary Investigation	25
3.3 Ground investigation	25
3.4 Trial Pits.....	27
3.4.1 Trial pits and log description	27
3.4.1.1 Trial pit 1	27

3.4.1.2 Trial pit 2	30
3.4.1.3 Trial pit 3	33
3.4.2 Interpretation of observation made	34
3.4.2.1 The rock formation period	34
3.4.2.2 The strata layout	34
3.4.2.3 Bearing capacity of the rock strata	34
3.4.2.4 The percolation rate	34
4.0 Consultations	36
5.0 Environmental and Social Impact of the project	41
5.1 Environment Impact of Solar Power	41
5.1.1 Land Use	41
5.1.2 Water Use	42
5.1.3 Hazardous Materials	43
5.1.4 Life-Cycle Global Warming Emissions	46
5.2 Social Impact of Solar Power	47
5.2.1 Air quality improvement	47
5.2.2 Sustainable source of Energy	47
5.2.3 Job and other economic benefits	47
5.2.4 Stable Energy prices	48
5.2.5 Reliable energy system	48
6.0 Mitigating Measures	50
6.1 Land Use	50
6.2 Water use and liquid effluent	50
6.3 Hazardous material use	51
6.4 Greenhouse gas emission	51
6.5 Socio-economic	51
6.6 Other impacts and mitigations	52
6.6.1 Construction phase	52
6.6.1.1 Site clearance and building construction	52
6.6.1.2 The fixing of racks and PV arrays	52
6.6.1.3 Traffic impacts during construction phase	53
6.6.2 Operation Phase	53

6.6.2.1 Solid and liquid waste	53
6.6.2.2 Traffic impacts	54
7.0 Monitoring and Maintenance	55
7.1 The construction phase.....	55
7.2 The operation phase	55
7.3 Maintenance	56
8.0 Alternative use of the site	59
9.0 Conclusion	60
Appendix A.....	61
Appendix B.....	64
Appendix C.....	69
Appendix D.....	77
Appendix E.....	85
