
TABLE OF CONTENTS

	Page
Title page	i
Table of contents	ii
List of tables	vi
List of figures	vii
Non- technical summary	viii
CHAPTER 1: INTRODUCTION	
1.1 Introduction	1
1.2 Project brief	1
1.3 Project design	3
1.4 Background on Project promoter	4
1.5 Project Site Location	5
1.6 Legal, Regulatory and Administrative framework	7
1.6.1 Legal Requirements	7
1.6.2 Environment Protection Act	7
1.6.3 Maritime Zones Act 2005 and Mauritius Oceanography Institute Act 2000	8
1.6.4 Zoning	9
1.7 Project justification	9
CHAPTER 2: SITE DESCRIPTION	
2.1 Site Description and surrounding environment	11
2.2.1 Access road	14
2.2 Climate	15
2.2.1 Site temperature regime	15
2.2.2 Site rainfall regime	15
2.2.3 Site wind regime	15
2.2.4 Site sunshine regime	16
2.3 Coastal characteristics	16
2.3.1 Shoreline type	16
2.3.2 Backshore	16
2.3.3 Intertidal zone	16
2.3.4 Littoral Fauna and Flora	17
2.4 Marine Characteristics	18
2.4.1 Bathymetry	18
2.4.2 Marine biota, Fauna and Flora	18
2.4.3 Oceanography	22
2.5 Ecological sensitivity	23
CHAPTER 3: PROJECT DESCRIPTION	
3.1 Introduction	24
3.2 Design of project	24
3.2.1 The intake well structure	25

3.2.2	The pipeline	27
3.2.2.1	Pipe Routing	28
3.2.2.2	Physical factors	28
3.2.2.3	Methodology for the laying of pipeline	29
3.2.2.4	Protection of the pipeline	30
3.2.3	The wet well	30
3.3	Associated features	31
3.3.1	Pumping Station No. 1	31
3.3.2	Pumping Station No. 2	32
3.3.3	Distribution of seawater in laboratories	32
3.4	Laboratory researches	32
3.4.1	Coral farming	33
3.4.2	Aquaculture	34
3.5	Drainage of seawater from laboratories	36
3.5.1	Effluent from Coral cultivation tanks	36
3.5.2	Effluent from aquaculture	36
3.5.3	Effluent from Pearl oyster cultivation tanks	37
3.6	Project implementation plan	37

CHAPTER 4: METHOD OF ASSESSMENT OF BASELINE ENVIRONMENT

4.1	Introduction	39
4.2	Methodology for assessment of baseline data	39
4.2.1	Biota survey on marine environment	39
4.2.2	Seawater quality	41
4.2.2.1	Baseline seawater quality test	41
4.2.2.2	Coastal water quality monitoring	43
4.3	Identification of further studies	44
4.4	Consultation	45

CHAPTER 5: PREDICTED ENVIRONMENTAL IMPACTS

5.1	Introduction	53
5.2	Potential impacts on Coastal environment during installation process	53
5.2.1	Impacts on fauna and flora	53
5.2.2	Impacts on landform	54
5.2.3	Noise emissions	54
5.2.4	Vibration	57
5.2.5	Impacts on shoreline	58
5.2.6	Risk of seawater backflow	58
5.2.7	Access to the exposed boulder beach	59
5.3	Potential impacts on Marine environment during installation phase	59
5.3.1	Impacts on sediments	59
5.3.2	Impacts on marine fauna and flora	62
5.3.3	Impacts on water quality	62
5.3.4	Impacts from boat traffic	62
5.4	Impacts on the marine environment during operation phase	63

5.4.1	Marine water quality	63
5.4.2	Odour emissions	64
5.4.3	Impacts on sediments	65
5.4.4	Impacts on marine fauna and flora	65
5.4.5	Impacts on hydrodynamics	65
5.4.6	Boat traffic impacts	66
5.5	Environmental risks	66

CHAPTER 6: MITIGATION MEASURES

6.1	Introduction	67
6.2	Mitigation measures on Coastal environment during installation process	67
6.2.1	Impacts on fauna and flora	67
6.2.2	Impacts on landform	68
6.2.3	Noise emissions	68
6.2.4	Vibration	69
6.2.5	Preservation of shoreline	69
6.2.6	Risk of seawater backflow	70
6.2.7	Access to the exposed boulder beach	70
6.3	Mitigation measures for marine environment during installation phase	70
6.3.1	Mitigation for propagation of sediments	70
6.3.2	Impacts on marine fauna and flora	71
6.3.3	Impacts on water quality	72
6.3.4	Impacts from boat traffic	72
6.4	Mitigation measures on the marine environment during operation phase	72
6.4.1	Marine water quality	72
6.4.2	Odour emissions	73
6.4.3	Marine fauna and flora	73
6.4.4	Hydrodynamics	73
6.4.5	Mitigation for boat traffic	73
6.4.6	Impact from open discharge canal	74
6.5	Mitigation for environmental risks	74

CHAPTER 7: RESIDUAL IMPACTS AND DECOMMISSIONING

7.1	Residual Impacts	75
7.2	Decommissioning	76

CHAPTER 8: SOCIO ECONOMIC AND SOCIO CULTURAL IMPACTS

8.1	Socio-cultural aspects	77
8.2	Socio-economic aspects	78
8.2.1	Impacts on employment	79
8.2.2	Impacts on fishing activities	80
8.2.3	Impacts on monuments of historical or religious importance	80

CHAPTER 9: ENVIRONMENTAL MANAGEMENT PLAN

9.1	Introduction	81
-----	--------------	----

9.2	Objectives of the EMP	81
9.3	Potential impacts, their Mitigation and Monitoring plan	81

CHAPTER 10: ENHANCEMENT OPPORTUNITIES 92

CHAPTER 11: ALTERNATIVES

11.1	Introduction	93
11.2	Alternatives to project	94
11.2.1	Alternative location	94
11.2.2	Alternative design	95
11.2.2.1	Alternative abstraction point	95
11.2.2.2	Alternative pipe diameter	96
11.2.2.3	Alternative pipe materials	96
11.2.2.4	Alternative pipe gradient	97
11.2.2.5	Laying techniques	98
11.2.3	Alternative undertaking	99
11.3	Do-nothing scenario	99
11.4	Alternative assessment	100
11.4.1	Preferred alternative	106

CHAPTER 12: CONCLUSION 108

References

LIST OF ANNEXES

1	Letter from MoE
2	(a) Copy of correspondence from the Ministry of Housing and Lands (b) Copy of application letter for clearance from the Ministry of Fisheries and Correspondence from Ministry of Fisheries
3	Location plan
4	Land Use Map
5	Meteorological data
6	Bathymetry chart
7	Marine biota survey report
8	Report on current pattern investigations
9	Concept design-Schematic plans of seawater intake structure/wet well
9A	New Concept design- Schematic plans of seawater intake structure
10	Plan showing Pumping Station No. 1 and 2
11	Master plan of MOI facility at Albion
12	Plan showing the drainage system
13	Seawater quality test report
14	Noise propagation sheet
15	Decision making matrix
