

Inauguration of Women's Cave at Roche Noires

Women's Cave at Roches Noires also known as "Cave Madame" or "Grande Cave" has been rehabilitated and inaugurated on 29 September 2003.

This Cave had for long been neglected and converted into a waste dumping site. However, in an attempt to preserve this national heritage site, this cave has been cleared of all wastes and has been converted into a leisure park as well as a major tourist attraction.
