re

LET'S **re**THINK
PLASTICS TOGETHER

WHY IS PLASTICS COMMON?

- ⊖ Affordable, light, easy to produce
- ⊖ Can be made in several shapes, colours and textures
- ⊖ Good barrier properties
- ⊖ Energy-efficient to produce and transport

What makes plastics unpopular: Improper disposal

WHAT IS NESTLÉ DOING GLOBALLY ?

WE HAVE COMMITTED THAT BY 2025

100% of our packaging will be
RECYCLABLE

We will **REDUCE** **1/3RD**
our use of virgin plastics by

**OUR
VISION**

NONE of our packaging, including plastics,
ends up in landfill nor in oceans, lakes or rivers

NESTLÉ INSTITUTE OF PACKAGING SCIENCES

FIRST-OF-ITS-KIND in the food industry

NESTLÉ BIG AMBITION

**JOURNEY TO NET
ZERO ACROSS
THE 5 MAIN
PILLARS**

NESTLÉ BIG AMBITION

5 PILLAR STRATEGY

Packaging reduction /
elimination

Pillar 1

Reusable / refillable
packaging systems

Pillar 2

Innovating to recycle
and compost materials

Pillar 3

Recycling and
waste management
infrastructure

Pillar 4

Rethinking behaviours
of Nestlé, retail partners
and consumers

Pillar 5

WHAT IS **NESTLÉ** DOING in MAURITIUS

re

reThink, reduce, repurpose

Let's
REact

A waste-free future requires strong strategies and resources to support any effort towards sustainability. The Nestlé RE sustainability initiative's purpose is to help us overcome the challenges faced in Mauritius while working towards achieving a sustainable tomorrow.

HEALTHIER KIDS 

OUR INITIATIVES

SCHOOL COLLECTION PILOT PROJECT

Through our pilot school project, we are introducing initiatives for students to take action towards contributing to Nestlé's global ambition. With the collaboration of the Ministry of Education and the Mauritius Institute of Education (MIE), we are closely working with 16 schools on a pilot basis for collection of plastics waste. We will install special bins in these schools to encourage pupils to bring back their plastics waste, which they will then dispose of in these bins. This waste collected will then be sent to our recycler for repurposing into outdoor furniture. This project will be launched this July.

JUMBO SUPERMARKET - COLLECTION

In collaboration with Jumbo Phoenix and Green LTD, we have placed a 30m2 bin in the compound of Jumbo phoenix to enable segregate their plastics waste. The waste is thereafter sent for REpurposing into outdoor furniture.

NESTLE PROFESSIONAL - COLLECTION

We are collaborating with our clients to recuperate all empty packaging which have been used for refilling of our coffee machines.

A NEW MINDSET

There's no simple fix to address this
SOCIETY PROBLEM.

We all have to be in it
TOGETHER.

Thank you
